

# Listec Z-PRO

## The Perfect Go-between....

### Specially Designed for Mini DV Cameras.

With a focus on quality and performance, the Z-PRO's all-in-one design accommodates the lightest weight cameras with a minimum of fuss.

Unlike conventional prompters, the Z-PRO mounts over the pan head's balance point, eliminating the need for a full-sized balance plate and rear counterbalance.

By reducing the overall weight of the prompter, the Z-PRO avoids placing undue stress on the support system. Now, a tripod with a capacity of only 25 lbs. can accommodate a mini DV cam and a fully professional 15-inch prompter – saving the need to upgrade to a more robust mounting.

With its compact design and choice of studio and fold-down hoods, the Z-PRO is ideal for in-house prompting, or for those on the move. While standard models feature Listec flat panels, a typical off-the-shelf computer LCD\* can be substituted, affording the user the option of selecting the display.

The Z-PRO is backed by Listec's reputation for superior manufacturing and dependable support – ensuring no nonsense prompting without compromise. Lightweight, high quality, cost effective... why put anything else between your camera and tripod?

All Z-PRO Prompters can be packaged to include a high quality lightweight tripod system with Listec Prompting Software for a perfectly balanced presentation.

# Z-PRO Configurations

## Standard Configurations

**MZ-1013P**  
13" Z-PRO featuring Fold-down Mirror/Soft Hood Assembly.  
System Weight: 16 lbs. (7.3kg)

**MZ-1015P**  
15" Z-PRO featuring Fold-down Mirror/Soft Hood Assembly.  
System Weight: 18 lbs. (8.2kg)

**MZ-1013S**  
13" Z-PRO featuring Standard-sized Studio Mirror/Hood Assembly.  
System Weight: 21 lbs. (9.5kg)

**MZ-1015S**  
15" Z-PRO featuring Standard-sized Studio Mirror/Hood Assembly.
